### **Equine Hospital Internship - Texas; Brazos Valley Equine Hospitals**

Brazos Valley Equine Hospitals was founded in 1987 by Dr. Terrell "T-Bone" Buchanan. His dedication and love for the equine industry has led the practice to develop multiple facilities across Texas, including Navasota, Salado, Stephenville, and Cypress. BVEH features experts in sports medicine, reproduction, and alternative medicine along with board-certified specialists in internal medicine, surgery, critical care, and emergency. Our hospitals feature a progressive approach to practice and utilize the latest equipment. We offer a full-service referral practice to local veterinarians while also providing primary care to our local and horse show clients. As one of the largest practices in the state of Texas, we have multiple board-certified specialists in the practice to manage cases and to help to mentor our interns. We strongly believe in mentoring, and as such, you will work with a veterinarian on all cases. Brazos Valley Equine Hospitals want to improve the lives of people and horses by mentoring and teaching recent graduates how to be the best professionals possible. It is our mission to invest in your success and help you develop into a great equine veterinarian by creating a positive mentorship environment, establishing clear and respectful communication, and helping you to positively impact the lives of people you encounter. Interns will spend the majority of their time at one hospital, with the ability to spend up to 2 weeks at another BVEH location. This is a one-year rotating equine internship program designed to provide a level of post-graduate training to prepare an intern for a residency program or private practice. The intern will have the opportunity to sharpen their diagnostic and decision-making skills in equine medicine, surgery, and intensive care while gaining hands-on experience in routine procedures and advanced diagnostics, as well as develop confidence in interacting with clients, staff and other veterinarians. Working in a fast-paced, friendly environment, the large caseload at our hospital can be very rewarding and educational. This program should provide the intern with enough clinical exposure to allow a solid foundation to start in general practice, a clinical sports medicine practice, or engage in a residency program. The amount of supervision will depend on the intern's experience and licensing status and may vary as the year progresses. The intern is expected to develop skills to allow handling of in-house and farm call appointments and emergency cases. However, the intern will always be under direct or indirect supervision as there is a staff veterinarian within 30 minutes of the hospital at all times. **Email [christi.mccoy@bveh.com](mailto:christi.mccoy@bveh.com) visit [www.bveh.com](http://www.bveh.com)**

### **Veterinarian - Quincy, FL; Quincy Animal Hospital**

Associate wanted in small town North Florida area. Small animal only practice with strong ties

to our community-one partner has been here 29 years, the other 17 years. We enjoy the outdoor life near two large lakes, an hour to the beaches of the Forgotten Coast of Florida and are near the largest National Forest in the state with miles of riding trails, hiking trails and camping. Our town is Old Florida at its finest yet we are a short drive to Tallahassee for shopping and dining. Our community offers an affordable cost of living as well. We have a devoted, experienced staff and a loyal client base. Our goal is to practice the highest quality medicine and surgery with compassion and an emphasis on client education. Our team of 2 experienced doctors welcome the opportunity to mentor a new or recent graduate in the art of veterinary practice and learn from you as you do from us with the goal of offering ownership potential to the right person. No emergency calls as we are 30 minutes from an emergency and referral practice and have an excellent relationship with their staff. Our practice has digital radiography, ultrasound, and tonometry. We are also open to a flexible work schedule. If practicing in a family oriented practice, with modern medicine and an emphasis on client relationship building is interesting to you, let's schedule a time to talk. **850-875-4811 Email [quincyah@tds.net](mailto:quincyah@tds.net) Visit [www.Quincyah.com](http://www.Quincyah.com)**
