### **DVM FULL TIME**

#### **Emergency Veterinarian: NJ; NorthStar VETS**

NorthStar VETS is an award-winning veterinary specialty and emergency hospital committed to being the best in one of the nation's busiest parts of the country, and because NorthStar VETS is one of the last privately-held specialty practices in the tri-state area, the culture is different than you'll find at corporate hospitals. The atmosphere is collaborative, meaning that you'd have direct access to many veterinary specialists in over a dozen specialties with whom to consult, and this is encouraged with daily morning cage-side rounds. You will also receive many in-house referrals because the team works so closely together. With three locations in New Jersey, you really can have it all. Life is short and where you choose to work matters. Veterinarians at NorthStar VETS enjoy a nice work-life balance, a tuition reimbursement program, money for continuing education, a higher than average support-staff-to-doctor ratio, friendly and helpful coworkers, management who listens, plus great pay and other benefits. If you are a hard-working, innovative, and compassionate veterinarian who wants to practice the best medicine for your patients, this may be the right fit for you. Please learn more on our website: [www.northstarvets.com/careers](http://www.northstarvets.com/careers). **To explore this possibility a little further, reach out to Chief of Staff, Dr. Daniel Stobie, at [drdstobie@northstarvets.com](mailto:drdstobie@northstarvets.com) or at 609.223.1510.**
